OBJECTIVE

Motivated Data Analyst with expertise in SQL, Python, and Machine Learning. Skilled in statistical analysis, predictive modeling, and data visualization. Passionate about leveraging data insights to optimize business decisions and drive growth.

EXPERIENCE

Data Analyst Intern, ETLHive Pune (Jan 2024 – June 2024)

- Analyzed large datasets using Python and SQL, supporting data-driven decision-making.
- Created interactive dashboards in Power BI, automating data visualization and improving real-time insights by 25%.
- Implemented ETL processes, enhancing data accuracy and reliability for analytical purposes.
- Optimized business processes by analyzing key performance indicators (KPIs), contributing to a 15% increase in efficiency.

Data Science Intern, Innomatics Research Labs Pune (Sep 2024 – Dec 2024)

- Developed machine learning models for predictive analytics, improving forecast accuracy by 20%.
- Built GenAI applications using Google AI APIs, enhancing automation solutions.
- Integrated LangChain workflows for seamless interaction between LLMs and structured/unstructured data sources.
- Awarded a Letter of Recommendation for exceptional performance in data science projects. [\[LINK\]](#)

PROJECTS

Diamond Price Prediction (Python, Machine Learning)

- Built a predictive model to assess diamond prices, considering attributes like carat, cut, and clarity.
- Enhanced pricing accuracy by 18% through robust model evaluation and validation techniques.
- GitHub: github.com/Yuvi666/Diamond-Price-Analysis

MediMind AI (Python, GenAI, Streamlit)

- Developed an AI-powered healthcare assistant providing symptom analysis and actionable health advice.
- Increased user engagement with a 30% improvement in information retrieval accuracy.
- GitHub: github.com/Yuvi666/MediMind-AI

Hans Sales Analysis After Marketing (Power BI)

- Analyzed sales metrics, utilizing advanced DAX functions for dynamic visualizations.
- Delivered insights on marketing effectiveness, aiding strategic decision-making and optimizing sales by 10%.
- GitHub: github.com/Yuvi666/Hans-Marketing-Sales.git

AMCAT Data Analysis (Python)

- Conducted univariate and bivariate analysis on AMCAT data, revealing trends in candidate performance.
- Insights led to identifying areas of improvement in educational programs.
- GitHub: github.com/Yuvi666/AMCAT-Data-Analysis

Museum Data Analysis (SQL Workbench, MySQL)

- Developed SQL database for museum data, enhancing data analysis through complex joins and operations.
- GitHub: github.com/Yuvi666/SQL-Project-Museum

SKILLS

Technical Skills

- Python (OOPS, Data Cleaning, Predictive Analysis, Web Scraping)
- Machine Learning (Sci-Kit Learn, Data Preprocessing)
- SQL (MySQL, ETL)
- Power BI, Tableau (Data Visualization, DAX)
- Excel (Power Pivot, VLOOKUP)

Soft Skills

- Problem-Solving
- Analytical Thinking
- Communication

EDUCATION

Master of Computer Applications, Pune University, Pratibha College (2022-2024)

Bachelor of Computer Applications, Pune University, Dr. D.Y. Patil Pimpri College (2018-2021)

CERTIFICATIONS

Data Analysis Training: ETLHive | Python, Power BI, SQL, Tableau, Excel
